SKILLS

- Languages:** Go (Golang), TypeScript/JavaScript, Dart, SQL, HTML, CSS, Bash
- Backend:** Fiber (Go), GORM, Node.js, Express.js
- Frontend & Mobile:** React, Flutter, Tailwind CSS
- Databases:** PostgreSQL, MariaDB, SQLite
- Cloud & DevOps:** AWS, Docker, Terraform, GitHub Actions, Linux

PROFESSIONAL EXPERIENCE

Limitless Hoops Mar 2025 - Present
Technical Founder (Remote)

- Spearheading design and development of a comprehensive suite of products for a high-growth youth basketball company.
- Architecting scalable custom systems: booking management, live game tracking, and secure payment processing using Go, Fiber, and third-party APIs.
- Developing cross-platform solutions, including custom browser and mobile applications, implementing complex membership and RBAC systems.

UpNCoding Apr 2024 - Present
Lead Engineer & Product Manager (Remote)

- Lead end-to-end development of custom software solutions, from requirements gathering and system architecture to deployment and maintenance.
- Collaborate directly with clients through discovery meetings to translate business needs into technical specifications and product roadmaps.
- Define application architecture, select development tools and technologies, and oversee implementation to ensure scalable, maintainable solutions.

PROJECTS

Limitless Hoops Suite Mar 2025 - Present
A massive software suite including player apps, admin dashboards, and a backend system that tracks live game stats and handles memberships.
Tools: Go, Fiber, Flutter, PostgreSQL, AWS, Terraform, Docker

Roost ADK Rail Trail App Mar 2025 - Apr 2026
A mobile app that helps users navigate the Tupper Lake–Lake Placid rail trail with map views, offline access, and curated points of interest.
Tools: Flutter, Dart, Go, AWS, iOS & Android

Sustainability Toolkit Oct 2025 - Jun 2026
A brand new digital platform built to teach residents about sustainability and environmental practices in their local community.
Tools: React, TypeScript, Tailwind CSS

Franklin County Community Services Oct 2025 - Jun 2026
A complete redesign of a county government website to improve public access to resources and ensure the site is accessible to everyone.
Tools: React, TypeScript, HTML, Tailwind CSS

EDUCATION

UpNCoding | Hack The Box
CPTS (Certified Penetration Testing Specialist) Feb 2026 - May 2026

UpNCoding | North Country Community College
Full Stack Development & Cloud Architecture Apr 2023 - Jul 2023

Southern New Hampshire University
B.S. in Computer Science (Software Engineering Focus) Jul 2020 - Apr 2024
